Day Tour Land Rover

The day starts with a visit to an archeological site where you will enjoy breakfast under an ancient 2000-year-old plane tree. The next tour stop is a traditional village with a Byzantine church, where you will taste locally brewed Greek coffee and Cretan products such as herbs, raki, honey and oregano.

You will climb to a height of 1200 meters, where you will spot the wildlife of the area such as these wild birds of prey; Vultures, and will impress you with their imposing presence.
